Enrollment Opportunities for High School Students

• **On-Site Program** — Jointly sponsored by Cecil County Public Schools (CCPS) and Cecil College, the On-Site program allows academically prepared students age 16 and over to take college-level courses at their home high school during the regular school day. Cecil College offers a College-Bound Scholarship for these courses. Other regional organizations, as approved by the College President, may participate in this program. All students must meet Cecil College admissions standards.

• **Gifted and Talented Program** — Students under age 16, who have completed 7th grade or the equivalent and are designated as gifted and talented, can enroll in Cecil credit courses through the Gifted and Talented program. Cecil courses taken are not available at the high schools. Students and their parent/guardian are required to meet with the Director of Admissions to complete all approval forms and processes. All students must meet Cecil College admissions standards.

• **Concurrent Enrollment** — Qualified students (age 16 or older) may enroll in Cecil College courses concurrent with their high school studies. Cecil College offers a College-Bound Scholarship for these courses. All students must meet Cecil College admissions standards.

• **Dual Enrollment Program** — Cecil County Public School (CCPS) students may be able to satisfy secondary school requirements through College coursework. The simultaneous enrollment in CCPS and Cecil College requires prior approval from both CCPS and Cecil College. Cecil College offers a College-Bound Scholarship for these courses. All students must meet Cecil College admissions standards. Students of other school districts may be eligible; contact Admissions at 410-287-1006.

• **Senior Waiver Program** — Cecil County Public Schools (CCPS) students may waive all or part of their senior year, enroll in courses at Cecil College, and still graduate with their high school class. Permission is required from CCPS and the parent/guardian. Cecil College offers a College-Bound Scholarship for these courses. All students must meet Cecil College admissions standards.

• **STEM (Science, Technology, Engineering, & Math) Program** — Students enrolled in the STEM Program of Cecil County Public Schools (CCPS) may enroll in designated courses at Cecil College during their junior and/or senior year of high school. Through this partnership, eligible students receive a waiver for two-thirds of the in-county tuition rate in effect for the semester. All students must meet Cecil College admissions standards.
