Message from the President

Welcome to Cecil College!

Cecil College offers everything you need to fulfill your dreams of attaining a life-changing education. Enrolling at Cecil College means making the commitment to empower yourself and, in turn, your whole family. Our students understand that committing to making a difference in their lives also enriches the lives of those around them.

The College remains steadfast in our vision of “transforming the lives of our students and enriching our community.” Whether your goal is to earn a certificate in one of our skilled trades programs, earn an associate degree, or transfer to a university to earn a bachelor’s degree, we are here to help you. As part of our commitment to your success, we provide many resources and services tailored to your needs, including individual attention from faculty and advisors.

Once enrolled at Cecil College, I encourage you to visit Student Life to become involved with one or more of the many student clubs and other experiences available to enhance your leadership skills, enrich your individual and team member development, and provide an opportunity to apply the skills you learned in the classroom to real life situations.

Congratulations on taking steps today that will support you in owning your future.

Mary Way Bolt, EdD
President

ON THE COVER

Discover the vibrant arts community at Cecil College! With monthly virtual and in-person exhibits, a gallery on each campus, clubs and numerous programs of study including the performing arts, Cecil College has everything you need to begin a career in the arts. Our programs include degrees in art and design, performing arts, and visual communications. Learn more about our areas of study, including simulation design and gaming, ceramics, sculpture, graphic design, photography and more! We have an entire website dedicated to the arts at Cecil, which can be found at arts.cecil.edu. You can also follow our art programs on Facebook and Instagram by discovering all of our social media channels at cecil.edu/socialmedia. Join our creative community today!

Due to COVID-19, all information regarding Summer/Fall 2022 offerings is subject to change. Please visit cecil.edu/coronavirus for the latest College updates.

View our full listing of programs at cecil.edu today!
To our Community,

COVID-19 has created an ever-changing environment for the daily lives of communities throughout the world. In order to provide the most accurate course listing for summer and fall 2022, we are providing the list of all course offerings at www.cecil.edu/courses, in lieu of listing them in this brochure.

The Admissions, Registration, Advising, and Financial Aid staff are available to help you. There are many ways to contact us for assistance!

NEW STUDENTS: 
For students who need to enroll at Cecil College, please call our Admissions representatives at 410-287-1006 or visit the home page of www.cecil.edu and use our convenient live chat feature during regular hours.

RETURNING STUDENTS: 
To speak with your Advisor about your course schedule, you can call 410-287-1600, email advising@cecil.edu or use our convenient live chat feature located on the Advising page of www.my.cecil.edu. Use your student credentials to log in.

To reach Registration, you can call 410-287-1600 or email registration@cecil.edu.

To reach Financial Aid, you can call 410-287-1003, email finaid@cecil.edu or use our convenient live chat feature located on the Financial Aid page of www.cecil.edu.

Register for Summer/Fall 2022 Classes!
Why should I choose Cecil College?
A: Cecil College provides a quality education with affordable tuition. Our focus is your success, which is why we offer a variety of programs and resources to ensure you reach your educational goals. In fact, we offer 70+ degrees and certificates. There’s something for everyone.

What are the class sizes at Cecil?
A: We have small class sizes. The average class size is about 18 students. The further you advance in your major and the more specific the course, your class size may be even smaller, allowing you increased accessibility to professors and fellow classmates.

Is Cecil College a 2-year or a 4-year college?
A: Cecil College is a two-year community college. We offer certificates and associate degrees in addition to many skilled trades and continuing education programs. Many of our degree students will transfer from Cecil College to a 4-year college or university to complete their bachelor’s degree. While at Cecil, you will work with an academic advisor to ensure that your credits will transfer to the four-year schools of your choice. Cecil has transfer and articulation agreements with hundreds of four-year schools. This makes the process of transferring very easy. Agreements include all the Maryland four-year schools and many regional schools such as University of Delaware, Penn State, and Wilmington University. Even if Cecil doesn’t have an agreement with a school, you can still transfer there but it’s very important to work with the advisor to ensure credits will transfer.

Do you offer in-person and online courses?
A: Yes, we offer both. We have day and night in-person courses which are also offered on different days of the week. As for online courses, we offer a few different types. Hybrid classes are courses that meet in-person periodically with some coursework offered online. Synchronous online courses are online classes that meet virtually at a set day and time. Asynchronous online classes have little or no designated meeting days or times and assignments are completed independently with scheduled due dates. We recommend you meet with your advisor to build a schedule that works best for you.

How do I apply for financial aid/scholarships?
A: We encourage everyone to complete the FAFSA (Free Application for Federal Student Aid). Completing it will determine your eligibility for federal grants, state grants, federal direct loans, and work-study jobs. The Financial Aid office at Cecil College is a great resource for anyone needing assistance with completing a FAFSA. In addition to the FAFSA, you can apply for the Cecil College Foundation Scholarships. Each year, the Foundation provides numerous scholarships for tuition assistance and required textbooks through existing scholarship funds established by the generosity of our donors, as well as from funds raised directly by the Foundation.

Are there extracurricular activities?
A: Yes, Cecil College student life is dynamic, filled with many opportunities for you to have fun, enrich your college experience, and grow as a leader. At Cecil, you have the opportunity to join any of our clubs. Our clubs have events, participate in College and community functions, and provide a place for interested students to gather. We also offer college athletics. We are members of the NJCAA. Students get two years of athletic-eligibility. You can transfer to a four-year school and continue to play while pursuing your degree.

How do I apply to Cecil College?
A: It’s very easy to complete the admissions application. Just visit cecil.edu and click the “Enroll” button. Once you complete the application, we will process it and send your acceptance letter by email along with your next steps.

Contact us today at 410-287-1006 or email admissions@cecil.edu. You may also visit the homepage at cecil.edu, use our convenient live chat feature during regular hours, or schedule an individual session with an Admissions counselor.
The Cecil College Foundation provides scholarships to recent high school graduates as well as adult students. All current and future students of Cecil College are encouraged to apply for these scholarships.

APPLYING IS EASY
- Apply online at cecil.edu/scholarships
- Simply submit one online application to apply for all Foundation scholarships

PROSPECTIVE STUDENTS
If you are a prospective student who has not gone through the admissions process, you can complete the admissions application online or contact the Admissions Office to apply to Cecil College and obtain your username and password necessary to apply for scholarships.

CURRENT STUDENTS
If you are a current student, but don’t know your credentials, please contact the college help desk for password assistance at helpdesk@cecil.edu or 410-287-4357.

Already have a Cecil College username and password? Apply for Foundation scholarships now.

APPLICATION DEADLINE
The deadline to submit your scholarship application is April 30. After you have submitted your application, you will be notified via College email of any award and next steps. Be sure to check your student email often.

Save money your first two years by earning your associate degree at Cecil College!

Cecil College has numerous transfer and articulation agreements with colleges and universities in Maryland and border states. Articulation agreements provide the opportunity for students to enter into program-to-program transfer agreements, or course-to-course equivalencies, with partnering institutions.

Transfer & Articulation Agreements
The College has entered into several formalized articulation agreements with four-year institutions throughout the state of Maryland and the region, including:

- American Public University
- Aspen University
- Delaware Valley University
- DeSales University
- Frostburg State University
- The George Washington University
- Lincoln University
- Moore College of Art & Design
- Neumann University
- Penn State Harrisburg
- Salisbury University
- Stevenson University
- Strayer University
- Southern New Hampshire University
- Towson University
- University of Delaware
- University of Maryland (UMD)
- University of Maryland, Baltimore County (UMBC)
- Wilmington University
- York College of Pennsylvania

Cecil College provides transfer information designed to assist students in making an easy transition into a four-year baccalaureate institution. All students are encouraged to meet with their academic advisors to determine the appropriate program of study and course selection for transfer.

Whether transferring coursework to Cecil College or transferring your completed degree or certificate to a four-year institution, transfer is a viable option to help meet your educational goals. For more information, contact Cecil College Advising at advising@cecil.edu or 410-287-1600.

START HERE, TRANSFER THERE

At Cecil College, your academic success is our number one priority. As an enrolled student at Cecil College, you will have access to free academic support and tutoring.

MATH LAB
The Math Lab provides free tutoring for students experiencing difficulty in any math course offered at Cecil College. The staff is experienced and can explain concepts, making sure students understand what they are learning.

The Math Lab is open for in-person tutoring on a drop-in basis. Online tutoring is available via Microsoft Teams.

THE WRITING CENTER
The Writing Center offers free tutoring in the areas of reading and writing to all Cecil College students. Writing Center staff support students in all subjects and at any stage in the writing process.

The Writing Center is open for in-person and online tutoring.

ENGINEERING AND SCIENCE
Free online tutoring is available for various engineering and science classes via email or Microsoft Teams from your computer or mobile device.

DISABILITY SUPPORT & WELLNESS
The Disability Support and Wellness Center provides appropriate accommodations and support services for students with documented disabilities who choose to self-disclose. In addition, the center provides mental health resource referrals, education, and crisis intervention.

Visit cecil.edu/virtualsupport for department hours and contact information.
START OR ADVANCE YOUR CAREER IN BIOSCIENCE!
An introduction to the field of Bioprocessing, Cecil College’s exciting new degree program focuses on harnessing cellular processes to create vital industrial and medical products in industries including:

- Bioremediation/Environmental Cleanup
- Brewing/Food production
- Pharmaceuticals/Vaccines
- Synthetic biology
- Textiles

This dynamic, interdisciplinary field incorporates aspects of biology, engineering, and chemistry and includes many technologies, expanding your opportunities in related career fields.

BECOME A PART OF THE NEXT GENERATION OF INNOVATORS
Learn about our programs in science, technology, engineering, and mathematics.

SCIENCE
Learn through research and experimentation to find out more about the natural world and create solutions to problems. Our science programs provide the foundation you need to begin your career in many different areas of applied science.

- Agricultural Sciences
- Biological Sciences
- Bioproduction
- Chemistry
- Geosciences
- Horticultural Science
- Physics

ENGINEERING
Our engineering programs include concentrations in aerospace, chemical, civil, computer, electrical, and mechanical engineering, as well as engineering science. Regardless of which path you choose to pursue, our programs will prepare you to transfer to four-year colleges and universities to complete your degree, including the Bachelor degree program at Frostburg State University, available on our campus.

- Engineering

TECHNOLOGY
The tech industry is one of the most active and evolving fields of study and career with a steady increase in demand for skilled professionals. Our programs in computer science and cybersecurity provide the foundation for careers that improve people’s lives and create valuable, useful solutions to real-world problems.

- Computer Science
- Cybersecurity

MATHEMATICS
The ability to apply mathematical concepts and principles can be useful in virtually any industry. Our mathematics program will give you valuable analytical skills and prepare you for further study in your related field of choice.

- Mathematics

NEW BIOPRODUCTION DEGREE!

Search for Summer/Fall 2022 courses at cecil.edu/courses.
BIOLOGICAL SCIENCES

If you have an interest in plants, animals, microbes, the medical field, or an interest in how humans can impact the environment, a degree in the biological sciences may be perfect for you. This program offers a selection of biology and other natural and physical science-related courses for students wishing to pursue a program of study in biology. This basic transfer program comprises the first two years of a baccalaureate degree in biology. Biology introduces the student to the biological principles common to all living things, with emphasis on evolution, molecular biology, diversity, ecology, physiology and genetics. This option is also appropriate for students seeking pre-med, pre-dental, or pre-pharmaceutical degrees.

Biological Sciences with Areas of Concentration (Associate of Science)

This degree program has concentrations in the following:

- Biology
- Biomedical Science
- Environmental Science

Biology and environmental science students at Cecil College have many opportunities during their studies to examine biological principles in the real world with field trips to regional zoos and botanical gardens, water treatment facilities, and local landfills. Regional nature centers such as North Bay and Fair Hill provide opportunities for hands-on fieldwork.

For more information about programs in Biological Sciences, visit cecil.edu/STEM. To apply, contact Admissions at admissions@cecil.edu or 410-287-1006.

AGRICULTURAL SCIENCES

Agricultural Sciences With Areas of Concentration

Agriculture encompasses anyone from the home gardener to the large-scale farmer or small business owner. Activities in this profession include maintaining equipment, selling supplies and owning livestock. By taking courses in horticulture, equine studies and business, this degree will provide the foundational tools to succeed in the agriculture industry working with plants and/or animals.

Cecil College offers concentrations in:

- Agriculture
- Agribusiness

The Associate of Applied Science Agricultural Sciences provides a course of study designed to meet the needs of students who plan to work in various fields of agriculture or to transfer to a college or a university that grants a Baccalaureate Degree in various areas of Agriculture.

Learn more about our Agriculture Sciences degree at www.cecil.edu/stem.

One thing I love about the Biology program is being able to have lab in-person and interact safely with other students while gaining the experience of doing hands-on projects and experiments.

- Jessica P., ’22
Do you like to design things and problem solve? Do math and science come easily to you? If you’re interested in a well-paying career that applies the principles of science and math to develop cost-effective solutions to technical problems, Cecil College’s engineering transfer program may be ideal for you.

The Engineering program option prepares students to transfer to a four-year institution for continued study in engineering. Most entry-level engineering jobs require a bachelor’s degree. Your Cecil College education will prepare you to transfer to four-year colleges and universities to complete your degree.

Cecil College offers the following associate degrees in engineering:

- Civil Engineering
- Electrical Engineering
- Mechanical Engineering
- Engineering with Areas of Concentration
  - Aerospace
  - Chemical
  - Computer
  - Engineering Science

Learn more about our Engineering degree at www.cecil.edu/stem.

Apply today! Contact Admissions at admission@cecil.edu or 410-287-1006.

“After earning my engineering associate degree from Cecil College, I transferred seamlessly to the University of Delaware and graduated with my bachelor’s degree in Mechanical Engineering. Now, I work at the U.S. Army Aberdeen Test Center as an engineer. I highly recommend Cecil College to anyone interested in a STEM career, as they will give you the stepping stones that lead to a successful career.”

– Erin E.
Cecil College, ’19
University of Delaware, ’21
Have you always wanted to work in the law enforcement field? Can you see yourself helping victims of crimes? Do you enjoy putting together the pieces of a puzzle in order to solve a mystery? If the answer to these questions is yes, pursuing the Criminal Justice Associate of Applied Science (AAS) degree at Cecil College may be the choice for you.

A criminal justice degree prepares students for a variety of careers related to criminal justice and social services. This degree introduces you to the criminal justice system and the laws designed to prevent criminal behavior.

The criminal justice system is vast and covers everything from preventing crime and rehabilitating violators to supporting victims and reaching at-risk youth. While many criminal justice students do plan to become police officers, the field offers many other career paths.

A Criminal Justice AAS program prepares graduates for a wide range of entry-level careers in law enforcement, the court system, correctional facilities, and similar fields. Police officers often come to mind at the mention of criminal justice, but that is not your only option. Here are some possibilities once you earn your associate degree in criminal justice:

- Police officer
- Detective
- Private investigator
- Correctional officer
- Crime scene technician
- Bailiff
- Security officer
- Victim advocate
- Probation officer
- Game warden

While the Criminal Justice program supplies you with the skills and knowledge necessary to enter the criminal justice field, some career paths may require additional training.

For more information, visit cecil.edu/programs-courses or contact admissions at admissions@cecil.edu or 410-287-1006.

SEARCH FOR SUMMER/FALL 2022 COURSES AT CECIL.EDU/COURSES.

Do you want a career where you can continually adapt to stay a step ahead of cyberattackers, learn the latest methods used by attackers to infiltrate computer systems and stay up to date on IT security? A career in Cybersecurity is right for you if you:

- see yourself in a career that offers diverse opportunities.
- would like to work in a growing Information Technology career.
- have aptitude for problem-solving and ingenuity; are analytical, detail oriented.
- enjoy the challenge of lifelong learning.

Cecil College offers an Associate of Applied Science and a Certificate in Cybersecurity. Both paths lead to a solid academic foundation in basic cybersecurity. The cybersecurity certificate is most appropriate for students who have earned a degree in another field of study and are seeking a career change, or for anyone that is already working in the profession and needs enhanced skills for career advancement.

An associate degree in cybersecurity provides the opportunity to start a professional career in an entry-level position after graduation, with the added ability to transfer to a bachelor’s degree program in the future.

For more information, visit cecil.edu/STEM or contact admissions at admissions@cecil.edu or 410-287-1006.

Search for Summer/Fall 2022 courses at cecil.edu/courses.
Turn that passion for athletics into a career, and you might feel like you never work a day in your life! Cecil College has launched a new Sports Management program that can kick off your career in the world of athletics.

You don’t have to be a superstar athlete to have a career in the sports industry. A degree in Sports Management can lead to being an athletic director, sports information director, promotions and events coordinator, marketer, and sales manager.

This growing field is an exciting and dynamic arena, with opportunities for a challenging and rewarding career. As sports technologies evolve and the industry continues to innovate globally, fan engagement and new programs have created a wide variety of career paths from which to choose. Earning an Associate of Applied Science degree in sports management from Cecil College is the first step toward getting into the industry.

Cecil College's program is designed for students who seek to acquire a complete framework of business concepts and skills directly related to sports management. Students will realize the role of sports managers in various athletic settings and understand management, accounting, and leadership skills to build a foundation in their chosen athletic environment.

TRANSFER AGREEMENTS

Cecil College’s sports management program also prepares students to take the next step in their education with articulation agreements with four-year institutions such as Southern New Hampshire University, which offers bachelor’s and master’s degree programs in sports management. Want to stay local? Many four-year universities in Maryland offer bachelor’s degree programs in sports management.

Sports management is a growing industry and Cecil College is excited to partner with Wilmington University to provide a pathway for our Associate Degree Sports Management graduates to continue their education towards a bachelor’s degree in Sports Management, Business Management, Human Resources Management, Marketing or Organizational Leadership, increasing students’ opportunities in the field of sports management.

– Dr. Christy Dryer
Vice President of Academic Programs

For more information about this program, visit cecil.edu/sportsmanagement or contact Admissions at admissions@cecil.edu, live chat at cecil.edu or call 410-287-1006.
Physical Therapist Assistant

Are you interested in science, health and physical fitness? Do you enjoy problem solving and helping others overcome challenges? If so, pursuing a degree as a physical therapist assistant (PTA) might be right for you.

The Physical Therapist Assistant program at Cecil College provides a foundation for graduates to become highly skilled in providing patient services using physical therapy techniques under the supervision and direction of a licensed physical therapist in clinics, hospitals, and many other health care settings.

The PTA program admits students once a year in the spring semester although many students opt to take pre-requisites in the fall. In the program, students will complete general education requirements, complete a core of technical education coursework and participate in three full time, off-site clinical experiences. Upon completion of the curriculum, the graduate will receive the Associate of Applied Science and will be eligible to take the National Physical Therapy Exam for Physical Therapist Assistants.

For more information, visit cecil.edu/pta, or contact admissions at admissions@cecil.edu or 410-287-1006.

PTA PROGRAM EARNS TEN-YEAR ACCREDITATION

Cecil College’s Physical Therapist Assistant (PTA) Program has achieved the unique distinction of earning a ten-year accreditation from the Commission on Accreditation and Physical Therapy Education (CAPTE) in its first attempt.

Cecil’s PTA program rose to national prominence when 100 percent of the first five groups of graduates passed the National Physical Therapy Exam (NPTE) on their first attempt. These results exceed the national and local averages in exam performance in all subject categories on the NPTE.

The healthcare field has seen an increase in job openings over the past several years, and Cecil College is committed to providing educational pathways that lead directly to employment and/or earning a degree. Cecil College offers associate degree, certificate, and training opportunities in a wide variety of healthcare professions.

ASSOCIATE DEGREES
Our degree options provide the foundation you need to begin your rewarding career in the health professions.

• Exercise Science
• Healthcare Sciences
• Nursing
• Paramedic
• Physical Therapist Assistant
• Public Health

CERTIFICATES
Cecil’s certificate programs are designed for those who seek to start, advance, or enhance their career through certification in a healthcare field of interest, our programs provide exceptional instruction in a learner-centered environment.

• Healthcare Sciences
• Licensed Practical Nurse
• Personal Trainer/Fitness Manager
• Public Health

Apply today! Contact Admissions at admission@cecil.edu or 410-287-1006.
TEACHER EDUCATION
@ CECIL COLLEGE

Have you always dreamed of becoming a teacher? Cecil College can assist you with getting started on that dream! The Teacher Education program offers the Associate of Arts in Teaching degree that provides the first two years of study for students who plan to transfer to a four-year university to pursue a bachelor’s degree in early childhood, elementary, or secondary education. This program enables students to fulfill their general education requirements, participate in field experience, and complete a core of professional education coursework appropriate for the first two years of teacher preparation.

With careful academic advising, the Teacher Education program provides a path for students seeking a seamless transfer to four-year public, independent, and most private institutions that offer teacher education.

Cecil College has strong partnerships for Teacher Education, with institutions in the region such as Wilmington University and Towson University in Northeastern Maryland, as well as transfer agreements within the State of Maryland.

Transfer information for Maryland colleges and universities is available through the Articulation System of Maryland (ARTSYS) website at www.artsys.usmd.edu.

Apply today! Contact Admissions at admission@cecil.edu or 410-287-1006.

PUBLIC HEALTH

Are you interested in being a part of positive change through community work? The Public Health program at Cecil College provides the skills necessary for effective community work in the areas of research, the environment, health care, and public policy.

DEGREE PROGRAM

Public Health with Areas of Concentration (Associate of Science) offers students a flexible degree program designed to provide a sound base of foundational credit coursework and additional career specific competencies in the discipline of public health. Through a combination of general education requirements, core electives, specific public health studies, and a final capstone assignment, graduates are prepared to enter the workforce or pursue further education in the field of public health.

CERTIFICATE PROGRAMS

• Health Navigator – Public Health Generalist
The Health Navigator Certificate program will offer students who are currently working in the healthcare industry the opportunity to prepare for work in the field of healthcare advocacy, as a health navigator.

• Public Health for Healthcare Professionals
The Public Health Certificate program will offer students who are currently working as healthcare professionals the opportunity to gain a comprehensive overview of population health and its application in various settings.

For more information, visit cecil.edu/publichealth, or contact admissions at admissions@cecil.edu or 410-287-1006.

Search for Summer/Fall 2022 courses at cecil.edu/courses.
If you’re interested in the arts, there’s no better place to explore your creativity than Cecil College.

If you have creative instincts, a passion for the arts, an eye for design, and an interest in technology, then a major in art and design or visual communications may be just the right fit!

The Art and Design program at Cecil College offers an Associate of Fine Arts (AFA) and an Associate of Arts (AA) in Art and Design. Students may declare multiple concentrations in the following areas: art history, ceramics and sculpture, drawing and painting, graphic design, interactive and motion arts, photography, digital arts, and studio arts. A rigorous curriculum will prepare you for transfer or career as an arts professional. Monthly gallery exhibitions yield unique opportunities for Cecil College students.

In the Visual Communications Program, you will refine your creative abilities and learn how to put them to work in the real world. If you follow your artistic and technical passion and work hard, a visual communications degree can lead you to a profitable career in a variety of areas including simulation design and gaming, which play a significant role in the rapidly growing field of 3D gaming. Simulation design helps manufacturers verify the intended function of a product under development, as well as the manufacturability of the product.

The Performing Arts Program offers degrees in music, voice, music education, audio technology, and theatre. Students train in classical and contemporary styles and are given performing experience, practical career skills, and applied technique as a foundation for advancement in the performing arts.

For more information about programs in the arts, visit arts.cecil.edu. To apply, contact Admissions at admissions@cecil.edu or 410-287-1006.
I advise anyone thinking of going back to school, take the step because the time just flew by, and I feel much more secure in my future. I am going to be successful. There is so much life ahead of me.

– Hannah L., ‘21
