

CECIL COLLEGE

STUDENT INTERNSHIP FAQ

What is an Internship?

An internship is a professional learning experience that offers students the opportunity to work in their fields of study. While developing skills in the classroom, students simultaneously develop skills in the workplace.

What are the Benefits of Interning?

- Students gain invaluable work experience in a professional setting.
- Students have the opportunity to apply classroom theory in a real work environment.
- Interns earn higher grades because their passion for their careers often coincide with their studies.
- Interns are exposed to training and networking opportunities that enhance opportunities for professional growth.

Are Internships Paid?

Although paid internships are not a requirement, we strongly encourage for-profit corporations to pay Cecil College interns. Students can earn college credit with a paid internship or complete an internship for experiential learning. An hourly wage, internship or otherwise, cannot be less than the minimum wage requirement for the state in which the student will be working.

How Do I Find an Internship?

Students should contact Career and Job Placement Services to find internships. We can also assist you with the application process. Contact us today!
